

Feeding and Medication
Delivery Accessories
with ENFit™ Connectors

The ENTRAL™ range of enteral feeding accessories is intended for use with feeding tubes with ENFit™ connectors and provides everything needed for:

- Drawing up medication into an ENFit syringe
- Drawing up nutrition (mother's milk) via an ENFit syringe using a Milk Straw
- Drawing up medications via a glass vial or ampule with a filter straw

ENFit connectors are designed to help prevent feeding tube misconnections and enhance safety.*

	PRODUCT CODE	DESCRIPTION	UNIT OF ISSUE
